PROFILE

Recent Engineering(ECE) graduate with a strong foundation in Python programming, web development, and a passion for learning and contributing to innovative projects. Seeking an entry-level position as a Python full-stack developer to apply my skills and knowledge to real-world applications and further develop my expertise in web development.

PROJECTS

Travel Partner (Frontend)

HTML, CSS, Bootstrap

- Developed a complete Travel Partner website using HTML, CSS, Bootstrap.
- Utilized HTML and CSS to build a modern and user-friendly interface.

Employee Management System (Backend)

- The project entitled "Employee Management System" is developed by Python.
- MySQL database in back end to computerize the process of management of Employee records.

CRUD OPERATIONS:

- It contains basic functions which include Adding, Updating, Viewing, Searching and Removing the Employees.
- Designed the front-end using Tkinter.
- Integrated a MySQL database for Employee Management and Exporting the Data in Excel File.
- Implemented CRUD functionality for Managing a Employees Data.

CERTIFICATIONS

- **Python Full Stack** - Successfully completed Python Full Stack training at Besant Technologies in Velachery, Chennai.
