PROFILE

Recent Engineering(ECE) graduate with a strong foundation in Python programming, web development, and a passion for learning and contributing to innovative projects. Seeking an entry-level position as a Python full-stack developer to apply my skills and knowledge to real-world applications and further develop my expertise in web development.

PROJECTS

COFFEE SHOP (Frontend)

HTML, CSS, Bootstrap

- Developed a complete Coffee Shop website using HTML, CSS, Bootstrap.

- Utilized HTML and CSS to build a modern and user- friendly interface.

Student Management System (Python)

- The project entitled " Student Management System" is developed by Python.

- MySQL database in back end to computerize the process of management of Student records.

CRUD OPERATIONS:

- It contains basic functions which include Adding, Updating, Viewing ,Searching and Removing the Students.

- Designed the front-end using Tkinter.

- Integrated a MySQL database for Student management and Exporting the Data in Excel file.

- Implemented CRUD functionality for Managing a Student Data.

CERTIFICATIONS

- **Python Full Stack** - Successfully completed Python Full Stack training at Besant Technologies in Velachery, Chennai.
